DEADLINE STATUS

Your InfoPath Exposure Report

Which 2026 dates apply to your setup, what breaks if you wait, and recommended next steps.

Compiled from Microsoft's own documentation, reviewed August 2026

01 The short version

- **May 18, 2026:** publishing new or updated forms is blocked in SharePoint Online.
- **July 14, 2026:** InfoPath Forms Services is removed, with no extension, and the client reaches end of support.
- Already-submitted data stays viewable and exportable after removal.

02 Recommended next steps

1. Inventory every form and its last real use.
2. Retire unused or duplicated forms.
3. Classify survivors by complexity.
4. Route to Power Apps, Microsoft Forms, or list forms.
5. Plan how existing submissions are preserved.

SOURCES AND VERIFICATION

- Microsoft 365 Message Center: InfoPath 2013 and Forms Services end of support (MC616550)
- Microsoft Q&A: Post InfoPath end of life
- Independent practitioner guidance on InfoPath retirement, cross-checked against Microsoft's own notice

Dates are Microsoft's own and can change; confirm against Microsoft's message before acting.
